### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The claims have been allowed because all of the applicants' independent claims have limited the catalyst to include tin, and this limitation is not taught or suggested in U. S. Pat. 4,299,800 (one of the more relevant pieces of prior art in this application). Additionally, the applicants' specification has provided surprising and unexpected benefits attributed to the presence of tin in the applicants' catalyst, as set forth on pg. 23 Ins. 6-9 in the applicants' specification in comparing the results of applicants' Example 12 (which uses a catalyst that contains the claimed tin) to the results of applicants' Comparative Example 6 (which uses a catalyst that does not contain the claimed tin). The applicants' tin-containing catalyst of Example 12 was able to remove much more oxygen than the tin-free catalyst of Comparative Example 6.

Any comments considered necessary by the applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
